VWT
THE POWER OF ACCESS®

"Our mobile app, VWTraveler is your personal travel assistant in the palm of your hand."

Our mobile app, VWTraveler is your personal travel assistant. You can view consolidated itineraries, important travel updates, disruption alerts and more - all while on the move. VWTraveler talks to our booking tool and alert systems, bringing your itinerary and travel information into one easy to use app.

VWTraveler supports detailed information on all your travel segments as well as rich functionality such as itinerary invoice, flight check-in, maps, trip and invoice sharing as well as messaging.

FOCUS ON TRAVELER EXPERIENCE

Through the VWTraveler app powered by Mantic Point, Valerie Wilson Travel delivers a superior digital experience that allows them to support their travelers at every stage of their journey.

“Mantic Point has a deep knowledge of business travel and an excellent range of traveler experience products as well as a flexible approach to implementation. They know business travel and want to work with us to deliver innovation to our clients and travelers.”

POWERFUL ITINERARY MANAGEMENT

One location for all trip information

Multi-GDS and non-GDS content combined into a single, consolidated itinerary delivered seamlessly to the traveler's mobile app. Automatic trip updates for all trip segments means the Valerie Wilson traveler always has the latest information they need.

Greater access, more control

VWT travelers have more control over their itinerary with self-serve features such as airline check in, access to your digital wallet, directions as well as adding in those important amendments such as meetings or restaurant reservations.

INTEGRATED TRAVELER INVOICE & RETRIEVAL

Access financial information via mobile

“Travelers can view important financial information about all their trips anytime within the VWTravelers apps including exchanges, fees and payment information.”

Share past itinerary invoices

“When they need to share their invoice our mobile app travelers can send a copy of their itinerary invoice to their colleagues or expense solution with just a few clicks, making life easier when on the go.”
