

Automated Waiver Management

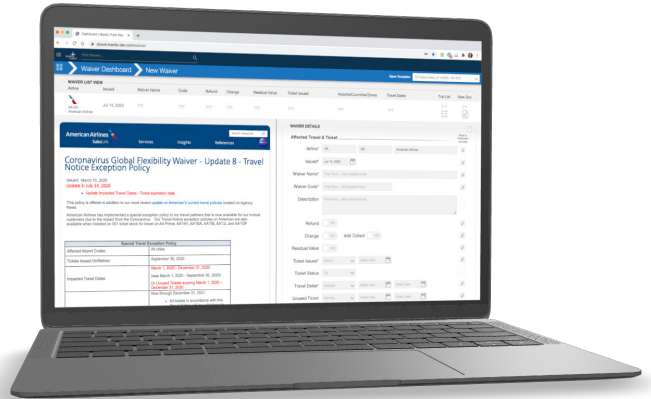

Capture, evaluate, act

Mantic Point's Waiver Autopilot manages the end to end waiver process

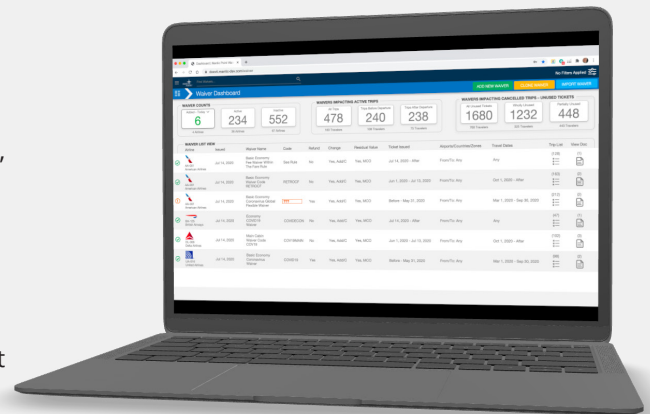

Capture airline waivers effortlessly

- ▶ Collate your airline waiver data in one place
- ▶ Manage updates and changes centrally
- ▶ Consistent waiver information across the organization
- ▶ Publish structured, clear waiver content for all agents
- ▶ Minimize debit memos resulting from inaccurate data
- ▶ Improve agent productivity with direct access to waivers
- ▶ Export waiver data to external systems
- ▶ Improved agent productivity with centralized waiver repository

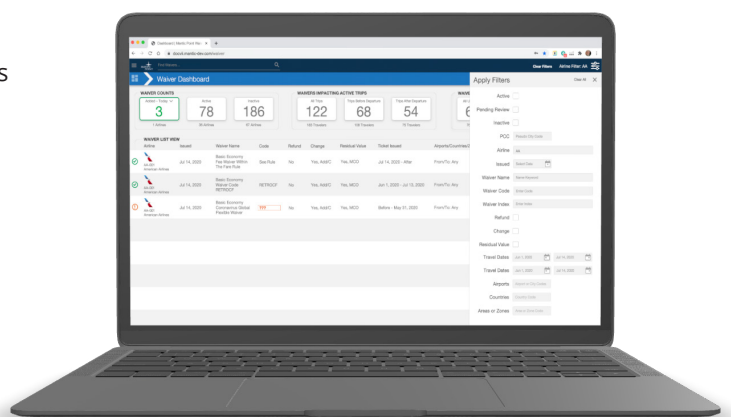

Evaluate PNR's and Act

- ▶ Quickly view PNR's impacted by waivers
- ▶ Powerful search and filter capabilities across key PNR, ticket, and waiver data points
- ▶ Drill down to view the full waiver detail
- ▶ Apply waivers to unused tickets
- ▶ GDS write back so waiver codes and key details are at the agents fingertips
- ▶ Seamless access to all fare rules for ticket and waiver impact
- ▶ Proactively communicate with travelers to improve their travel experience

Automate the end-to-end process

- ▶ Waiver Autopilot manages the end to end waiver process
- ▶ Touchless waivers, lets agents focus on the traveler
- ▶ Reduce the impact of debit memos
- ▶ Full audit reporting of changes made to the PNR
- ▶ Include all your key airline relationships
- ▶ Integrated with Mantic Point's unused ticket service
- ▶ Save time, resources and money

About Mantic Point
